Full Stack Developer

FSI LLP • Panvel, Maharashtra

07/2021 - Present

As a Full Stack Developer at FSI LLP, I contribute to the development of web applications using a diverse tech stack including **React**, **JavaScript**, **MySQL**, **Prisma ORM**, **AdonisJS** and **Git**. Collaborating with cross-functional teams, I gather requirements, design user interfaces, and implement new features. I am also responsible for testing and debugging code to ensure high-quality standards and optimal functionality.

Key Responsibilities:

- Developed and implemented new features for web applications, enhancing user experience and functionality.
- Collaborated with team members to successfully deliver projects within tight deadlines.
- Performed code reviews and implemented best practices to ensure code quality and maintainability.
- Utilized version control system (Git) to manage codebase and enable seamless collaboration.
- Designed and implemented robust APIs using **TRPC** to facilitate seamless communication between frontend and backend systems, ensuring clarity, scalability, and maintainability.

Front End Developer

FSI LLP • Panvel, Maharashtra
